

At the beginning of a work day by giving your personal information like the things that you need to do in the day and your time limitation to Appmap it will suggest you a short and low traffic way. So that you wouldn't have to spend long in the traffic jam and you will get to do your shop and your daily things for example if you need a bank Appmap will show you the nearest one in your way through your destination and it also offers you some fun and cultural event suggestion and even some bank services like charging your card and it will update all the events in the city and it is also totally free to download.
