What can we do to enable face to face real meetings and chats between people!

Get ou of the online world
dive into real life!

It's hard to meet new people
in the middle of life?

It's hard to meet new people,
if you're new in town!

People want to go back to real chats instead of having conversation through devices.

„ My device is enslaving me!“

„ I‘m not welcome by
locals in my new
neighbourhood“

„My friends don't have time
for a spontaneous beer“
